NATURAL PLANTER COLLECTION

NATURAL ABACA[™]

Made by pressing natural bark from the rapidly renewable Abaca tree onto a durable synthetic shell, then protecting the natural material with many layers of clear resin, then polishing the clear surface to a high sheen. Natural Abaca is complemented by Abaca in Colors, which are the same shapes painted in any of our Earth Forms finishes.

Natural Abaca — For indoor use only

Abaca in Colors — For indoor and outdoor use Shown in Burnished Steel

$NATURAL ABACA^{TM}$

$BIANCO^{\scriptscriptstyle \rm TM}$

Made by mixing natural white marble powder with resin and backing it up with strong fiberglass. The resulting containers have the appearance and feel of white marble. While not nearly as heavy as solid marble, Bianco does weigh more than normal synthetic planters, which contributes to the feel of a very solid, substantial and beautiful product.

$BIANCO^{TM}$

NATURAL SHELLS[™]

Hand made from natural polished shells. Each shell is meticulously fitted onto a synthetic base material, creating stunning bowls and cone planters. Natural Shells are available in Polished Natural White and Polished Natural Brown, both of which have an iridescent sheen and brighten any interior environment exponentially.

Natural Shell Pedestals

Polished Natural White (PNWH)

Polished Natural Brown (PNBR)

NATURAL SHELLS[™]

SOLID BAMBOO[™]

The U.S. Green Building Council has designated Bamboo as a rapidly renewable material. Our Solid Bamboo planters therefore qualify for LEED credit under MR Credit 6: Rapidly Renewable Materials^{*}. These planters are not only strong, durable and long lasting in most interior settings, they bring the quantitative benefit of LEED credit in combination with exceptional natural beauty.

SOLID BAMBOO

TERRAZZO[™]

Made with a mixture of natural stone and resin and backed by strong fiberglass, these handsome planters have the look of natural stone without the weight of solid stone. The clear gelcoat resin and stone combine to make an extremely durable and scratch resistant surface, and a gorgeous, long lasting planter. Terrazzo can be used in virtually any exterior or interior environment. It has been tested in -44 and +150 degrees Fahrenheit, and has also been UV tested, with excellent results.

Dark Terrazzo (DT)

Dark Terrazzo High Polish (DTHP)
